

The Commanding Officer  
takes great pleasure in recognizing

Chuck Guitard  
as the

**2001 DOOLING AWARD RECIPIENT FOR  
INFORMATION MANAGER OF THE YEAR**

“Through your significant accomplishments, outstanding leadership and highly professional competence, you have been selected to receive the prestigious Dooling Award. As the Management Information Systems Officer, Naval Hospital, Corpus Christi Health Care System, you have performed superbly in transitioning the hospital into the 21<sup>st</sup> Century. Your global perspective and unparalleled expertise has created a Management Information Systems Department that is well positioned to take advantage of future opportunities in Military Medicine.

Your numerous individual accomplishments have been substantial and have had a positive impact on your Command and Navy Medicine. These accomplishments include, but are not limited to: Coordinating the reconfiguration of the CHCS Host Service from Sheppard Air Force Base to Naval Hospital Corpus Christi providing a single point to point connection at which all network communications could be managed and protected by eliminating five network control points; assuring technology and infrastructure consistently remain in the highest of priorities in this command’s strategic plan; designing and initiating the network infrastructure upgrade and creating a data warehouse to provide one-touch access to administrative and clinical data pertinent for decision-making. Additionally, you distinguished yourself by consistently displaying an unsurpassed level of professionalism and dedication through development of a comprehensive workload-tracking program, which captures and distributes workload to the support staff and provides valuable management data to supervisors.

On behalf of your fellow Information Management professionals of Navy Medicine, congratulate you on your outstanding achievements in the pursuit of excellence, and congratulate you for a job “WELL DONE.”

  
N. D. YAMODIS

Captain, Medical Corps, United States Navy
